JUC, 13–10–2017, 11.00

present Jonathan, Des, Harro, Benito, Arpad

Jonathan: UB handles 1000B packets properly, weights ok, register with time code also ok now.
Benito: no work done yet
Des: will ask eBob to make some mods, then use Benito as guinea pig

No time for test last week after e. Next week, EVN session, only in December next opportunity? We need some data. Arpad will send email asking stations for time on Monday or Tuesday.
