

JUC, 9/6/2016, 13.30, Arpad's room

present Jonathan, Harro, Arpad

Jonathan: timing issues (sometimes yes, no) seem to have been fixed.  
Harro: e-VLBI data has VTP header. Oops. Jonathan has found solution, needs to be tested. Control code will need some work as well,  
Some discussion on smaller and bigger than expected frames. Smaller should be ok, bigger get rejected.
